PROFESSIONAL SUMMARY

Senior Full Stack Developer with 5+ years of experience building and scaling web applications on PHP/Laravel stacks and AWS cloud infrastructure. Specialized in search optimization, cloud migrations, and payment integrations for high-traffic e-commerce platforms serving millions of daily transactions. Promoted to Senior in 2026 after driving key platform initiatives. Strong background in end-to-end SDLC ownership, from architecture design through deployment, with a Master's degree in Management Information Systems.

TECHNICAL SKILLS

Languages: PHP, Python, JavaScript, SQL, Bash

Frameworks And Libraries: Laravel, jQuery, Bootstrap, Tailwind CSS

Databases And Search: MySQL, Elasticsearch, Redis, NoSQL

Cloud And Infrastructure: AWS (EC2, S3, Lambda, CloudWatch), Cloudflare (R2, CDN), Docker, ELK Stack

Architecture And Patterns: RESTful API Design, Message Queuing, Microservices, Object-Oriented Programming

Ai And Tooling: Cursor, Claude Code, GitHub Copilot, Gemini CLI, OpenAI Codex

Frontend: HTML, JavaScript, AJAX, Bootstrap, Tailwind CSS

EXPERIENCE

Senior Full Stack Developer (Promoted 01/2026)

05/2022 – Present, Istanbul, Turkey

Shopier

- Promoted to Senior in 01/2026 based on consistent delivery of high-impact platform initiatives and technical leadership across cross-functional teams.
- Architecting and leading backend system improvements, mentoring junior developers, and driving technical decisions for the platform's continued scaling.
- Integrated Masterpass digital payment system by coordinating across frontend and backend teams, enabling stable transaction processing for the platform's entire user base.
- Implemented Elasticsearch across the e-commerce platform, building indexing and synchronization pipelines that handle millions of daily records and significantly improved search relevance and speed.
- Led the migration of millions of image files from AWS S3 to Cloudflare R2, improving page load performance and increasing site uptime, directly boosting user satisfaction.
- Built internal developer and operations tools that increased cross-team efficiency and reduced manual workflows.
- Developed and maintained backend services in PHP/Laravel, streamlining core business processes across the platform.

PHP Developer

08/2021 – 05/2022, Istanbul, Turkey

SNG Digital Information Technologies (Pozitera Group)

- Developed and optimized three enterprise platforms (Taskhouse, Perakende Dijital, Bir Adım Sağlık) collectively supporting over 10,000 active users across multiple business units.
- Owned all phases of the SDLC on a LAMP stack, from requirements analysis through deployment and maintenance.

- Engineered high-performance backend modules that improved data integrity by 40% and reduced manual data reconciliation efforts by 30% through seamless interoperability between internal systems.

Full Stack Developer

04/2020 – 08/2021, Istanbul, Turkey

Freelance

- Designed, developed, and deployed a web-based examination and grading system for a private college, serving over 1,000 students and 80 faculty members.
- Integrated role-based authentication and authorization across student, faculty, and admin tiers, reducing account-related support requests by over 70%.
- Engineered an automated grading workflow that cut assessment turnaround time by 60%, enabling educators to return evaluations three times faster with improved grading consistency.

PROJECTS

BetterDump (<https://halukaksoy.dev/projects-betterdump/>)

Open-source PHP debugging utility. Available on GitHub with clean documentation and active maintenance.

HTTP Mock (<https://halukaksoy.dev/projects-http-mock/>)

A mock HTTP service tool for testing and simulating API responses during development.

Random Profile (https://halukaksoy.dev/projects-random_profile/)

A utility for generating randomized user profile data for testing and development purposes.

EDUCATION

M.Sc. in Management Information Systems and Engineering

Marmara University, Istanbul · 2023 · 3.25/4.00

B.Sc. in Management Information Systems

Ankara Yıldırım Beyazıt University, Ankara · 2021 · 3.00/4.00

B.A. in International Relations

Anadolu University, Eskişehir · 2022

CERTIFICATIONS

PHP Essential Training

LinkedIn Learning · 08/2021

PHP: Object-Oriented Programming

LinkedIn Learning · 08/2021

AWARDS & HONORS

Higher Education Scholarship

Turkish Education Foundation (TEV) · 2021
